CONTENTS OF VOLUME 6

No. 1, Spring, 1974

Blood volume of middle-distance runners: effect of 2,300-m altitude and comparison with non-athletes
D. B. Dill, Kendall Braithwaite, William C. Adams and Edmund M. Bernauer 1

Metabolic and thermoregulatory responses of women to exercise in two thermal environments
Christine L. Wells and Steven M. Horvath 8

The effects of training at predetermined heart rate levels for sedentary college women
Marigold A. Edwards 14

Changes in cardiorespiratory parameters during periods of training and detraining in young adult females
Margaret N. Fringer and G. Alan Stull 20

Effects of breathing O_2-enriched gas mixtures on metabolic rate during exercise
Hugh G. Welch, John P. Mullin, G. Dennis Wilson and Jean Lewis 26

The relationship between temperature and oxygen uptake of contracting skeletal muscle
J. K. Barclay, P. D. Allen, and W. N. Stainsby 33

Relationship of maximal leg force and leg composition to treadmill and bicycle ergometer maximum oxygen uptake
Frank I. Katch, William D. McArdle and Gary S. Pechar 38

Body composition and physiological characteristics of active endurance athletes in their eighth decade of life
Jack H. Wilmore, Henry L. Miller and Michael L. Pollock 44

Longevity of endurance skiers
M. J. Karvonen, H. Klemola, J. Virkajarvi, and Anneli Kekkonen 49

Predicting certified weight of young wrestlers: a field study of the Tcheng-Tipton method
Kenneth S. Clarke 52

Influence of competitive wrestling upon state anxiety
William P. Morgan and Willard M. Hammer 58

Prolonged effects of anabolic steroid upon muscular contractile force
Gideon Ariel 62

Abstracts of the 21st Annual Meeting of ACSM 65

No. 2, Summer, 1974

Book Reviews ii

Letters to the Editor viii

Effects of training on women's response to submaximal exercise
M. Marilyn Flint, Barbara L. Drinkwater, and Steven M. Horvath 89

Effects of physical training in men with coronary heart disease
David L. Costill, George E. Branam, Jack C. Moore, Kenneth Sparks, and Craig Turner 95

Comparison of oxygen uptake during maximal work on the treadmill and the rowing ergometer
Philip Carey, Mark Stensland, and L. Howard Hartley 101

The effect on $\dot{V}O_2$ max of adding arm work to maximal leg work
M. A. Gleser, D. H. Horstman and R. P. Mello 104

Thermal effects of prolonged treadmill exercise in the heat
Carl V. Gisolfi and John R. Copping 108

Pulmonary function of marathon runners
David A. Kaufmann, Edward W. Swenson, Joyce Fencl, and Anthony Lucas 114

A profile of a champion distance runner: age 60
Michael L. Pollock, Henry S. Miller, Jr., and Jack Wilmore 118

The effect of training on epinephrine and norepinephrine excretion
Thomas L. Cronan III and Edward T. Howley 122

The effect of an endurance type exercise program on the circadian rhythm of urinary 17-Ketosteroids
Fred G. DeLacerda and Ralph E. Steben 123

Iowa wrestling study: urinary profiles of state finalists prior to competition
E. J. Zambraski, C. M. Tipton, H. R. Jordon, W. K. Palmer, and T. K. Tcheng 129

Alterations in strength, body composition and anthropometric measurements consequent to a 10-week weight training program
Jack H. Wilmore 133

Body composition assessment of college wrestlers
Wayne E. Sinning 139

Body dimensions of Japanese and American gymnasts
Barney LeVeau, Terry Ward, and Richard C. Nelson 143

Local and total body fatigue effects on learning and performance of a gross motor skill
Doyice J. Cotten, William R. Spieth, Jerry R. Thomas, and Judson L. Biasiotto 151

Strength increments following massed and distributed practice relative to motor learning
Leon E. Smith 154

The effects of viewing a film of professional hockey on aggression
John Mark Eastwood 158

John Mark Eastwood 158

CONTENTS OF VOLUME 6

No. 3, Fall, 1974

Book Reviews iii

Sympatho-adrenal activity in physical exercise
Ulf Svante Von Euler 165

The effects of maximal resistance training on the strength and body composition of women athletes
C. Harmon Brown and Jack H. Wilmore 174

Physiological profiles of women distance runners
Jack H. Wilmore and C. Harmon Brown 178

Mitochondrial swelling associated with exercise and method of fixation
James B. Gale 182

The effect of chronic exercise on reserpine-induced gastric ulceration in rats
Thomas H. Johnson and Gerald D. Tharp 188

Possible incompatibility of glucose-6-phosphate dehydrogenase deficiency and championship athletic performance
Nicholas L. Petrakis, Steven J. Petrakis, Stephen L. Wiesenfeld, and Eleni Spanidou 191

Blood flow and carbohydrate metabolism in dog skeletal muscle in situ following propranolol
C. K. Chapler and J. Katrusiak 193

Mechanical properties of rabbit tendons after repeated anti-inflammatory steroid injections
John W. Mackie, Bruce Goldin, Merle L. Foss, and James L. Cockrell 198

Effects of an androgenic-anabolic steroid on strength development and plasma testosterone levels in normal males
S. B. Stromme, H. D. Meen, and A. Aakvaag 203

Dynamometric instrumentation of the rings for analysis of gymnastic movements
Digby G. Sale and Ross L. Judd 209

Impact absorption, new and old AstroTurf at West Virginia University
K. Douglas Bowers, Jr. and R. Bruce Martin 217

No. 4, Winter, 1974

Maximal aerobic power of Japanese active and sedentary adult females of different ages (20 to 62 years)
Yoriko Atomi and Mitsumasa Miyashita 223

Metabolic cost and perception of effort during bicycle ergometer work performance
Bryant A. Stamford and Bruce J. Noble 226

Maximal oxygen consumption and relative body fat of high-ability wrestlers
James B. Gale and Kenneth W. Flynn 232

The caloric cost of running and walking one mile for men and women
Edward T. Howley and Mary Edna Glover 235

Alterations in 2, 3-dpg and p_{50} with maximal and submaximal exercise
Jack T. Taunton, Cheryl A. Taunton and Eric W. Banister 238

Cardiorespiratory adaptations to training at specified intensities in children
Denis R. Massicotte and Ross B. J. Macnab 242

Motor fitness of tmr vs emr and normal children
Ben R. Londeree and Leon E. Johnson 247

Motor-unit involvement and tension during maximum, voluntary concentric, eccentric, and isometric contractions of the elbow flexors
Ken L. Rodgers and R. A. Berger 253

Fractionated reaction and reflex time before and after fatiguing isotonic exercise
Walter Kroll 260

Body weight, leg volume, leg weight and leg density as determiners of short duration work performance on the bicycle ergometer
Victor Katch, Arthur Weltman and Ellen Gold 267

Validity of anthropometric measurements and the segment-zone method for estimating segmental and total body volume
Victor Katch 271

A device to strengthen and evaluate the medial rotator muscles of the leg
Loarn D. Robertson, Ralph Geeseman and Burt Nixon 277

Field dependence of selected athletic sub-groups
David Pargman, Lynn E. Schreiber and Franklin Stein 283

Computer generated track and field scoring tables: I. Historical Development
J. Gerry Purdy 287
